HOSE BAG FOR RAPID DEPLOYMENT

FORESTLINE BAG

SPEED AND MOBILITY WITHOUT COMPROMISE.

ForestLine Bag is a professional hose bag designed for rapid and efficient deployment during wildland firefighting operations and interventions in difficult-to-access terrain, where every second counts.

Thanks to its well-designed construction, **it enables smooth hose deployment by a single operator while moving**, significantly accelerating hose line deployment and increasing operational efficiency.

The bag is fully compatible with the **ForestPack** carrying system, to which it can be quickly and securely attached, creating a compact and highly mobile system for long-distance water transport.

KEY FEATURES

- Rapid hose deployment by a single operator while moving
- Easy-access Velcro opening for rapid hose deployment
- Optimized for hose line deployment in terrain
- High resistance to water, dirt, and mechanical stress
- Easy and secure attachment to the ForestPack carrying system
- Low weight while maintaining maximum durability
- Ideal for operations in difficult-to-access and mountainous terrain

APPLICATIONS

- Wildland firefighting and operations in natural environments
- Rapid hose line deployment
- Long-distance transport of hoses and water
- Deployment in difficult-to-access terrain

COMPATIBILITY

- ForestPack – backpack carrying system
- ForestGuard 6 / 12 – mobile pumping systems
- C/D hoses (depending on configuration)

 **ForestPack carrying system is not included with the hose bag.**

TECHNICAL PARAMETERS

WEIGHT

0,77 kg

CAPACITY

up to 65 l
(open configuration)

DIMENSIONS (W x D x H)

approx. 290 mm
x
380 mm
x
610 mm

MATERIAL

Modified PVC
(Plastel)

STRAPS

Polyester
